

Muzej farmacije osnovan je jula 2022. godine, a svoja vrata za posjetioce otvorio je 17.10.2023. godine, na dan kada je 1907. godine donesena uredba kojom je ženama dozvoljeno da budu vlasnice apoteka pod istim uslovima kao i muškarci.

Bogata historija farmacije u Bosni i Hercegovini, prati epohe kroz koje je zemlja prolazila - od srednjovjekovne do savremene bosanskohercegovačke države.

Osim specifičnosti farmacije BiH, nezaobilazan je globalni kontekst, pa posjetioci mogu otkriti najznačajnije događaje vezane za farmaciju i njen doprinos nauci i društvu.

Otkirće i razvoj prirodnih lijekova, najčešće biljnog porijekla, alhemija i hemija, kao i stare sprave (utenzilije) za pripremanje lijekova, replika atarskog dućana, ljekaruše, dokumenti, farmakopeje i stari apotekarski namještaj, samo su dio izložbe preko koje predstavljamo farmaciju.

Osim stalne izložbe, Muzej farmacije organizuje tematske izložbe, radionice i različite stručne i naučne skupove.

1

RECEPCIJA

Dobrodošlica i prijava obilaska i posjete.

Preporučeni hodogram obilaska predstavljen je tačkama na podu. Pratite godine za koje se vežu otkrića nekih od najznačajnijih lijekova u historiji.

2

HISTORIJSKI ZID prikazuje razvoj farmacije od prahistorije do danas.

Skeniranjem QR koda dobivate više informacija o određenoj temi.

Istražite aktuelne teme na interaktivnom displeju smještenom između kipova Eskulapa i Higije.

3

„GALENSKI LABORATORIJ“ simulira laboratrij za pripremu lijekova u apoteci, sadrži brojne predmete korištene za pravljenje lijekova, te prezentira prirodne nauke – botaniku i farmakognoziju, hemiju i alhemiju i njihovo mjesto u farmaciji.

Na LED ekranu možete gledati tradicionalni način pravljenja različitih oblika lijekova u apoteci.

HOT SPOT

Stare apotekarske vage i pilulari

4

BOSANSKOHERCEGOVAČKA FARMACIJA

Ogleda se kroz 5 epoha:

1. Srednjovjekovna Bosna
2. Osmanski period
3. Austro-ugarski period
4. Jugoslavija (Kraljevina i socijalistički period)
5. Samostalna BiH

U ovoj prostoriji smještena je replika atarskog dućana – specifične preteče apoteka na prostoru BiH

2

HOT SPOT

Otkrijte replike ljekaruša – starih knjiga receptura za pravljenje lijekova i liječenje različitih bolesti čiji su originali pohranjeni u franjevačkim samostanima u BiH

5

INDUSTRIJSKA FARMACIJA – BOSNALIJEK SOBA

Otkrijte razvoj farmaceutske industrije kroz priču o prvoj bosanskohercegovačkoj farmaceutskej kompaniji.

3

HOT SPOT

Prikaz dokumenata jednog od prvih kliničkih ispitivanja u Bosni i Hercegovini iz 1959. godine

6

APOTEKARSKA OFICINA

Predstavljanje razvoja savremenog apotekarstva i stare apotekarske oficine sa namještajem iz 1987. godine

4

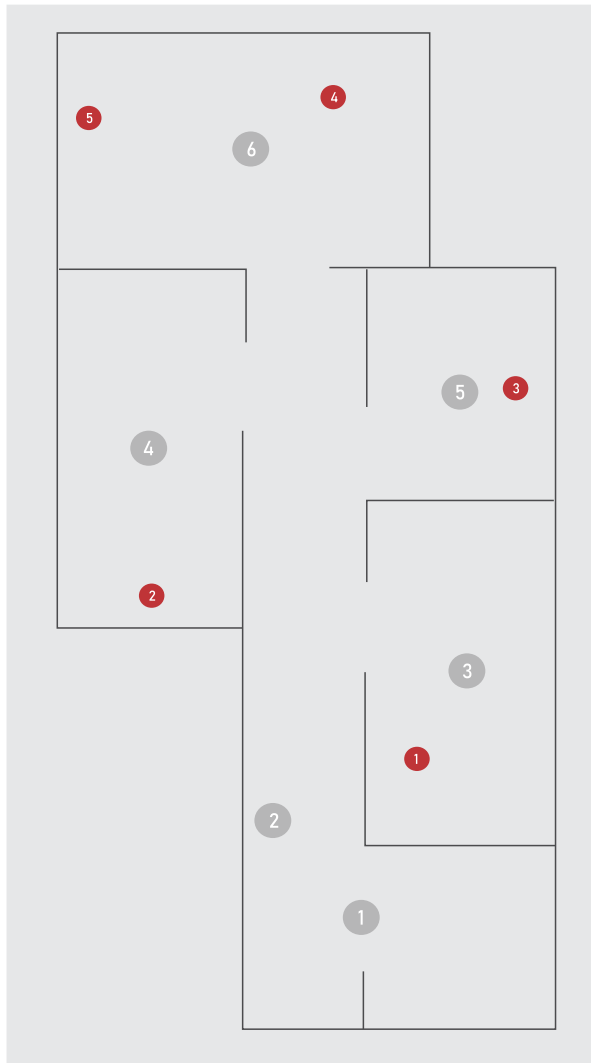

HOT SPOT

Namještaj apoteke dopremljen iz Dubrovnika za potrebe Austro-ugarske vojne bolnice. Istražite različite stojnice i signature ljekovitih supstanci

5

HOT SPOT

Zgrada preko puta je bila mjesto prve moderne apoteke u Sarajevu otvorene 1877. godine od strane farmaceuta českog porijekla Euarda Pleyela. Na fasadi se vidi reljefni medaljon sa inicijalima „EP“

RASPORED IZLOŽBE I PROSTORIJA**Preporučeni hodogram obilaska muzeja**

Pratite podne krugove sa godinama koje predstavljaju najznačajnija otkrića u farmaciji

Koristite interaktivne QR kodove gdje je to naznačeno kako biste upotpunili iskustvo

The Pharmacy Museum was founded in July 2022, and opened its doors to visitors on October 17, 2023. year, on the day when in 1907 a decree was passed which allowed women to be the owners of pharmacies under the same conditions as men.

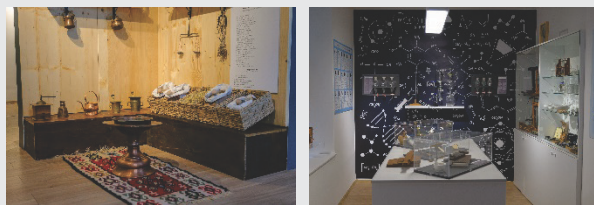

The rich history of pharmacy in Bosnia and Herzegovina follows the eras the country went through - from the medieval to the modern state of Bosnia and Herzegovina.

In addition to the specificity of pharmacy in BiH, the global context is unavoidable, so visitors can discover the most significant events related to pharmacy and its contribution to science and society.

The discovery and development of natural medicines, most often of plant origin, alchemy and chemistry, as well as old devices (utensils) for preparing medicines, a replica of an Atari shop, medicine cabinets, documents, pharmacopoeias and old pharmacy furniture are only part of the setting through which we present pharmacy

In addition to the permanent exhibition, the Museum of Pharmacy organizes thematic exhibitions, as well as workshops and various professional and scientific meetings.
